	FT1000 High Growth Companies Asia Pacific	Deloitte Technology Fast500 Asia Pacific
Pacific Edge Ltd rank	5 th	171 st
Countries	11: Australia, Hong Kong, India, Indonesia, Japan, Malaysia, New Zealand, the Philippines, Singapore, South Korea and Taiwan	9: Australia, China (including Hong Kong), India, Japan, South Korea, Malaysia, New Zealand, Singapore and Taiwan
Selection and qualifying criteria	<ul style="list-style-type: none"> • Revenue of at least \$100,000 generated in 2013 (or currency value equivalent as of December 31, 2013) • Revenue of at least \$1m generated in 2016 (or currency value equivalent as of December 31, 2016) • The company is independent (the company is not a subsidiary or branch office of any kind) • Be headquartered in one of 11 territories in Asia-Pacific • The revenue growth between 2013 and 2016 was primarily organic (i.e. “internally” generated) • If a company is listed on a stock exchange, its share price has not fallen 25 per cent or more in the past 12 months 	<ul style="list-style-type: none"> • Award winners are selected based on percentage fiscal year revenue growth during the period from 2014 to 2016 (or 2015 to 2017 for a financial year ending between January and June). • Eligibility requires that companies own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company’s operating revenues. • Companies must have base-year operating revenues of at least US\$50,000. • Companies must be in business for a minimum of three years and be headquartered within Asia Pacific.
Research phase	As well as those who applied directly, Statista examined the official revenue data of more than 14,000 public companies in the 11 participating territories to find suitable entrants. In the next step all companies that met the criteria were added to the list.	This ranking is compiled from nominations submitted directly to the Technology Fast 500 program, and public company database research
Calculation of growth rates	The calculation of company growth rates is based on the revenue figures submitted by the companies in their respective national currency. For better comparability in the ranking the revenue figures were converted into US dollars. The average exchange rate for the financial year indicated by the company was used for this purpose.	From Deloitte’s FAQs : Q: How is the percentage growth calculated? A: $[(\text{Current Year Revenue} - \text{Base Year Revenue}) / \text{Base Year Revenue}] \times 100 = \text{Percentage Growth}$

The compound annual growth rate (CAGR) was calculated as follows:

$$(\text{revenue2016} / \text{revenue2013})^{(1/3)} - 1 = \text{CAGR}$$

The absolute growth between 2013 and 2016 was calculated as follows:

$$(\text{revenue2016} / \text{revenue2013}) - 1 = \text{Growth rate}$$
